Banks Bordier and Bonhôte participate in the launch of the new Sectoral Biotech Opportunities Fund

Bordier FinLab SA and Bonhôte Fund Solutions, in cooperation with a pool of institutional investors, support Sectoral Asset Management in the launch of its new Sectoral Biotech Opportunities Fund.

Supported by around 15 healthcare and finance sector specialists, the **Sectoral Biotech Opportunities Fund** management team, led by portfolio manager Dr Mina Marmor, PhD and Michael Sjöström, co-founder and CIO of Sectoral, have successfully managed a reference fund in the field of biotechnology.

The purpose of the new fund is to invest in innovative biotech companies, with an emphasis on small and mid caps. In doing so, it aims to differentiate itself from large biotech funds and ETFs.

The fund, with assets in excess of \$50 million, was publicly launched on 1 June 2016.

“We are very happy to be working with Sectoral Asset Management, one of the pioneers in biotech investment. We are delighted to be able to contribute to such a high-quality project, and hope to be able to help other talents emerge in the future”, said the heads of Bordier FinLab and Bonhôte Fund Solutions.
